

Checklist is this the right backpack for you?

With this checklist, you are ready to find your new backpack! Good luck and have fun travelling!

1. Does the backpack match your way of travelling?

- Does the bag suit your travel purpose: wearing comfort versus traveling comfort?
- Is the bag large or small enough? If you take a lot of things with you, choose a 60-70 L bag, if you travel as compact as possible then 40-50L is enough.

2. Does the backpack fit well?

- Is the backpack securely on your hips?
- Is the backpack not too high?
- Is the backpack comfortable with your shoulders, neck and chest? Do the shoulder straps follow the line of your shoulders? Does he not pinch your neck, chest or arms?
- If you walk, does the bag stay in place?
- Is the backpack comfortable in general?

3. Is the backpack logically arranged & safe?

- Are there enough pockets and compartments for you?
- Can you access the luggage via a zipper in the front?
- Is there a flight bag and / or rain cover with sturdy handles?
- Are there eyes on the zippers so that you can put a lock on them?

4. And finally

- Do you like the bag?
- Does the bag fit your budget?

Have fun with your backpack and travelling!
